

FARM CO-OPS CLOSE FOURTH ANNUAL MEET

Are Opposed to Farm Surplus Legislation at This Time

WASHINGTON, Jan. 15 (AP)—The fourth national conference of the National Council of Farmers' Cooperative Marketing Associations went on record at its concluding session today as opposed to any legislation at this time dealing with surplus farm products.

In adopting the report of its legislative committee which recommended such a course, the conference upheld the views of Robert W. Bingham of Louisville, chairman of the National Council and Aaron Shapiro, the council's legal adviser, who had urged that the question be left to the farmers themselves to meet through extended cooperative organization.

Former Governor Frank O. Lowden of Illinois, and other members of the group favoring legislative aid in tackling the problem, were absent from the floor when the conference took its action.

The report provided for appointment of a committee of eight to study the surplus problem and report to the council's executive committee. Its findings will be made the basis of a referendum vote among the cooperative associations which will determine vote among the cooperative associations which will determine the organization's policy on the subject. Mr. Lowden who had sought approval by the council of some form of legislation to take care of the surplus phase of farm relief, was understood to have remained away from the final session as a form of protest.

Endorse Haugen Bill

The conference unanimously endorsed the Haugen bill, which is backed by the administration and provides for a division of cooperative marketing in the department of agriculture with an appropriation of \$225,000 for its maintenance and operation. This bill was favorably reported today by the house agriculture committee and Chairman Haugen said he expected to get it before the house next week. The conference adopted a resolution asking that the secretary of agriculture give special attention to request of several wheat growers' cooperatives for changes in the rules governing grain gradings operation of warehouses and grain exchanges.

WORLD WAR HERO'S BODY SHIPPED NORTH

HAINES CITY, Fla., Jan. 15 (AP)—Draped with the little silk flag that figured in the capture of Hainey Lieut. Elmer R. Plummer, world war hero who committed suicide in a hotel here Saturday, was en route today to La Grange, Ill., for burial.

Wounded and gassed, Plummer, who was decorated in the presence of King George, General Pershing and Marshal Foch, was returned to the United States in 1918 but refused to remain in active. He took part in the fourth Liberty loan drive in New York and the little silk flag which had been given him by his mother, when he enlisted, assisted in the sale of \$64,000 in bonds.

Plummer was one of the nine survivors of company E of Colonel Sanborn's famous regiment, "The Dandy First," of Chicago.

PRESIDENT DEAD
Quincy, Ill., Jan. 15 (AP)—J. H. Elder, 80, president of the First National Bank of Hamilton, Illinois north of here died this evening after an illness of about a year.

Mr. Elder has been connected with the bank since its founding. He was also prominently engaged in church work there, being superintendent of the First Presbyterian Church Sunday School for the past 25 years.

THE DAY IN WASHINGTON

(By the Associated Press)

The house approved the Italian debt settlement.

Debate continued in the senate on the world court.

Harvey S. Firestone gave a house committee his views on rubber.

Senator Cole Blease delivered another attack on diplomatic liquor immunity.

Charges of monopoly were heard by the house committee considering radio legislation.

Hearing on the Watson-Parker railroad labor bill continued before the senate committee.

Many Are Targets Of Sen. Blease's Attacks

WASHINGTON, Jan. 16 (AP)—Attacks on Woodrow Wilson, foreign diplomats, prohibition agents and others, were made in the senate by Senator Blease, Democrat, South Carolina.

Reading George Washington's farewell address as an argument against American adhesion to the World Court, the South Carolina particularly scored the diplomats, advertising to them time and again. He charged that they "were feeding liquor to" an "enchanting" American women without interference from federal authorities. Assailing the Democratic party for endeavoring to foist the league of nations upon the country he said he believed this was done conscientiously for the purpose of "endeavoring to make, thru his egotism and vanity, the then president of the United States 'the president of the world'."

With respect to prohibition he declared that "any man who thinks this country has prohibition is an ignorant fool."

SENATE SHOWS TOP SPEED ON NEW TAX BILL

Measure now to Point to Permit Final Action Today

WASHINGTON, Jan. 15 (AP)—Working at full speed, the senate finance committee brought its work on the house tax reduction bill up to a point today which will permit final action on it tomorrow.

Chairman Smoot ordered several approved sections of the bill sent to the printers, and announced he would attempt to have the measure presented to the senate by Wednesday and taken up on the floor a day or two later.

The committee disposed of a number of technical measures today. Provisions of the house bill continuing the board of tax appeals with a membership of sixteen members with increased salaries was approved, but it was decided to limit the terms to ten years instead of 14.

Terms of the house bill requiring that appeals be filed with the board were given to give taxpayers the alternative of filing with a board or a court.

A motion to extend jurisdiction of the board to cases under the 1913 act was rejected.

Exemptions changed

The committee agreed to an amendment assuring exemption of income on profits of cooperative marketing associations when 85 per cent of their business is transacted on behalf of members. It refused, however, to allow exemptions for cooperative apartment house organizations.

Provisions of the house bill allowing refunds of the difference between the present and new taxes to automobiles and cigar dealers for stocks on hand thirty days after the law becomes effective were approved.

House provisions to create an investigating commission to study administration of the income tax law was amended to include only five members each of the house ways and means committee and the senate finance committee on the committee. The house proposed five additional members representing the public.

PROBE ACTIVITIES OF ST. LOUIS FIRM

ST. LOUIS, Mo., Jan. 15 (AP)—Postoffice inspectors have begun an investigation into the activities of the L. B. Portman and company, dealers in investment securities, whose offices here were closed recently.

It was learned today that the postal officials have obtained a search warrant and seized all records in the company's offices, searching for information relating to alleged fraudulent use of the mails.

The government inquiry follows announcements by Missouri and Illinois state officials that there would be probe into alleged violations of the "blue sky" laws by the company, in which a number of St. Louisans are reported to have lost approximately \$56,000.

Officers of the company are Lawrence Portman, 28, and Raymond Portman, 24, brothers who came to St. Louis from Peoria, Ill.

AGRICULTURAL RELIEF LEGISLATION "CYCLONIC"

Washington, Jan. 15 (AP)—Demand for agricultural relief legislation in the corn belt was described today as "rapidly developing into cyclonic proportions" by Representative Howard, Democrat, Arkansas.

EARTHQUAKE SHOCK FELT AT BLUE MOUND

Decatur, Ill., Jan. 15 (AP)—Residents of Blue Mound report a distinct earthquake shock at 8:30 this evening.

"The only man in this country who has prohibition is the poor devil who has not got the money to buy liquor and everybody knows it," the senator said. "If he does not know it, it will not take him long to find out if he will just walk slowly along the street and look like his hips are dry."

"Why, they have soliciting agents all over the city, and they come into the senate office building and they go to the house of office building and they come under the dome of the capitol and yet some people stand up and talk about prohibition."

Advertising again to Woodrow Wilson, the South Carolina senator said that when James M. Cox, the Democratic candidate for president in 1920, "went up to the white house and knuckled down and said, 'I consecrate my all to thee, Mr. Wilson, not my country,' the people slapped him in the face and properly so, because George Washington told them to do so."

SAYS PUBLIC IS NOT FULLY PROTECTED BY WATSON-PARKER BILL

Manufacturers' Counsel Makes Plea Before I. C. C. Committee

WASHINGTON, Jan. 15 (AP)—The Watson-Parker railroad labor bill was attacked today before the senate interstate commerce committee by James Emery, general counsel of the National Manufacturers' association who contended that it did not properly protect the public interest. If the bill is adopted without amendment, he declared congress will abandon the policy of protecting the public in railroad labor disputes and step back to the situation existing in 1920, when the public interest was not protected.

Passage of the bill had been urged by Representatives of both the railroad operators and the United States Explorer on the ground that it was an agreement reached by the principals to settle disputes and maintain uninterrupted transportation.

Mr. Emery's argument that by abolishing Title Three of the transportation act of 1920, which is a special provision to protect the public a policy would be adopted to permit employers and employees to make unrestricted agreements that would place "uneconomic charges upon transportation."

The manufacturers' representative proposed an amendment to require the reference of all agreements to the interstate commerce commission which would have power to set aside any awards that would materially affect railroad rates. Another amendment he suggested would require continuous transportation service while complaints were being investigated. A third would give power to the proposed emergency board that would be appointed by the president similar to that given the voluntary board composed of representatives of the employers and employees which would be the first to act in case of a dispute.

The house tomorrow plans to take up five resolutions to authorize acceptance of the funding agreements negotiated since the last congress with Latvia, Belgium, Czechoslovakia, Roumania and Estonia. There is no announced opposition to any of the agreements.

CHARGE MONOPOLY IN RADIO FIELD

WASHINGTON, Jan. 15 (AP)—Charges of monopoly in the radio field were made today before the house merchant marine committee at its hearings on the White bill to regulate the industry. Sherman L. Whipple and Boyd B. Jones, Boston attorneys who represent Professor Reginald A. Fessenden, of Tufts College in his \$30,000,000 suit against radio interests for alleged restraint of trade told the committee that radio and wire telephone and telegraph organizations had monopolized their respective fields by pooling patents. Representative Davis, Democrat, Tennessee said that as "a lawyer and a member of the committee," he agreed with the assertion.

The Radio Corporation of America was mentioned as controlling the industry.

J. P. Cotton of New York, attorney for corporation denied that it had violated the law.

The committee was urged by Mr. Whipple to amend the White bill by making more stringent provisions to prevent monopoly.

The committee concluded hearings on the bill and took under advisement various suggested amendments.

LANGLEY LEAVES TO BEGIN HIS SENTENCE

Cincinnati, O., Jan. 15 (AP)—Former Congressman John W. Langley left here tonight for the Atlanta penitentiary to begin his two year sentence on a charge of conspiracy to violate the National Prohibition law. Langley is due to arrive at Atlanta tomorrow morning.

GIRL BEATEN AND ROBBED TWICE, THEN DISAPPEARS

Mattoon, Ill., Jan. 15 (AP)—Twice beaten and robbed the day before she was to have been married, Miss Paula Findley, Thursday disappeared from the home of relatives in St. Louis just a few hours before her postponed wedding. Police here and in St. Louis have been asked to search for her.

ITALIAN WAR DEBT PASSES HOUSE VOTE

Agreement Provides Debt to be Paid in Sixty-Two Years

WASHINGTON, Jan. 15 (AP)—The house today approved the Italian war debt agreement by a vote of 257 to 133 the house today adopted a resolution to authorize acceptance of the Italian war debt settlement as recommended by the American debt commission. The resolution now goes to the senate where a similar one already has been reported by the finance committee.

Voting against the agreement, which was severely attacked in the house during nearly four days of debate, were 113 Democrats, 17 Republicans, two Independents and one Socialist. Twelve were paired against the proposal and 17 failed to vote.

The agreement provides for the funding of the obligation, over a 62 year period with annual payments beginning at \$5,000,000 and gradually increasing to \$80,000,000. For an original debt of \$1,648,000,000 the United States will receive a total of \$2,407,000,000.

Opposition of the settlement contended that the interest rate to be paid over the 62 year period will be so low as to amount to virtual cancellation of the debt.

The Mussolini government also was assailed in the debate as a dictatorial institution that was throttling the liberties of the Italian people, while the premier himself was described by Representative Rainey, Democrat, Illinois, as "a cruel and vicious dictator."

Others leading the attack on the settlement including Representative Garrett of Tennessee, the Democratic leader, Representative Rathbone, Republican, Illinois, and Representative Hull, Democrat, Tennessee.

Friends of the settlement however, warmly defended its terms. Chairman Green of the house ways and means committee which reported the resolution and Representatives Burton, Republican, Ohio, and Crisp, Democrat, Georgia, members of the debt commission, leading the fight for its approval.

The house tomorrow plans to take up five resolutions to authorize acceptance of the funding agreements negotiated since the last congress with Latvia, Belgium, Czechoslovakia, Roumania and Estonia. There is no announced opposition to any of the agreements.

JUGO-SLAVIA WILL HAVE EVOLUTION TRIAL

BELGRADE, Jan. 15 (AP)—Jugo-Slavia, 70 percent of whose population is illiterate, is to have an evolution trial. The trouble was started by Bonislav Petrovich an eminent professor, who in a lecture before a large crowd ten days ago propounded the theory that man was descended from the monkey. There was little reaction among the audience and that part of the population to which the news spread but a small village near Vranja took the statement more seriously dividing into two factions, the one headed by the chief religious authority and the other by a school master named Karadjic, who upheld the evolution theory.

Finding that the "fundamentalist" cause was not gaining ground, the clergyman took the matter to the court at Vranja, charging the teacher with a desecration of religious belief and morality. The case is to come to trial at Vranja and Serbian and foreign newsmen already are flocking to the town.

Karadjic is not worrying over the outcome, declaring that the minister of education will quash the sentence if he is condemned.

SCHOOL WITH TEACHER BUT WITHOUT PUPILS

LAKENAN Mo., Jan. 15 (AP)—A school with a teacher but without pupils is being operated north of Pilot Grove, near here. The teacher comes to the school every day but there are no pupils for her to instruct.

The school board of the Simmons District, wishing to be on the safe side at the opening of the school term, employed a teacher for their school, although for a time there had been a shortage of pupils. At the opening of the school term it was learned that the pupils that had been attending the school had either enrolled in other public schools at Pilot Grove or were attending parochial schools. The teacher, however, comes to the class room every day, thus fulfilling her contract, although there are no pupils to teach.

ADAIR CO. JUDGE DIES FOLLOWING LONG ILLNESS

Kirksville, Mo., Jan. 15 (AP)—U. S. G. Keller, former probate judge of Adair county died at his home here this afternoon after a year's illness. He was elected probate judge in 1903 and held that office for 13 years. He was 61 years of age.

U. S. SEES NO WAY TO HELP IN MINE ROW

Cannot Take Hand Until Legislation Has Passed

WASHINGTON, Jan. 15 (AP)—President Coolidge adheres to the view that the federal government can do nothing to bring about resumption of anthracite mining.

Until congress enacts legislation to give power to act in such agricultural disputes as have resulted in the tie up of the anthracite mines he is convinced the government is powerless to take a hand.

The anthracite situation was not discussed at today's cabinet meeting, although later the President asked Secretary Davis of the labor department whether there were any developments of interest and was informed there was none aside from those carried in the press.

It was indicated at the white house that the president is watching with interest the special session of the Pennsylvania legislature hoping that it may take some action designed to put an end to the anthracite suspension.

Not only is President Coolidge convinced that nothing can be done now by a federal agency, but he feels that substantial progress cannot be made toward working out a permanent plan for solution of labor disputes in the mining industry with a controversy existing in the anthracite field.

As for a coal supply, Mr. Coolidge also contemplates no government action toward insuring adequate fuel.

The situation is satisfactory in all sections even in New England and the normally anthracite consuming territory, he has been informed and also there is a shortage of hard coal, there are plenty of satisfactory coal substitutes.

Senator Copeland, Democrat, New York, meanwhile introduced a joint resolution to authorize the president to take what ever steps are necessary and proper to bring about an immediate resumption of anthracite mining.

The resolution is one of many measures recently introduced having a similar object called attention that the conference between the coal operators and miners had ended in failure and that there was immediate danger to the public health and welfare because of the lack of an essential fuel for which substitutes are unsatisfactory and unduly expensive.

SUES PUBLISHERS WHO PRINTED HER BRIDAL PICTURE

Chicago Woman Objects to
Caption, "How I Won
the Man I Love"

ST. LOUIS, Mo., Jan. 15 (AP)—Mrs. Ruth Wilk Plamondon of Chicago today filed suit for \$500,000 damages in circuit court here against the Butterick Publishing company of New York.

Mrs. Plamondon charges publication in the last issue of Butterick's quarterly of an advertisement of the Psychology Press, St. Louis, containing a full length photograph of her in a wedding gown and with reading matter captioned, "How I Won the Man I Love."

This publication, she alleges, was wholly unauthorized and caused her to be held up to public ridicule.

The suit quotes the advertisement as reading in part: "How a demure little wren of a girl was changed almost overnight into an attractive bird of paradise woman—how she had been neglected by her young men acquaintances, suddenly became the center of attraction, and in a few weeks the radiant bride of the man she had loved in vain for years."

Attorneys said the plaintiff was the daughter of a Chicago banker and the wife of A. D. Plamondon, Jr.

BOARD RECEIVES GRIMMETT RECORDS

TWO LUMBER ASS'NS
PLAN BIG MERGER
Cairo, Ill., Jan. 15 (AP)—The Southern Illinois Retail Lumber Dealers' association voted at its annual convention here today to merge with the Illinois State Retail Lumber Dealers' association.

Final action on the merger is expected to be taken at Chicago February 10, when the state organization meets.

POLAND WILL LEVY ON GRAIN FOR TAXES

Warsaw, Jan. 15 (AP)—Because of the difficulty in collecting taxes from certain classes, especially the farmers, the government has resorted to the medieval system of levying grain.

Survivors Tell Of Experiences In Mine

FAIRMOUNT, W. Va., Jan. 15 (AP)—A vivid story of the thoughts and actions of the 21 men entombed far beneath the earth's surface for more than 19 hours was told tonight by John H. McNeill and Lee Falty, the men generally credited by their fellow workers with having brought them safely from their living tomb. These men were the survivors of the explosion last night in the No. 8 mine of the Jamieson Coal & Coke company at Fairmount. Nineteen men lost their lives.

Twenty three men were gathered together about an air lock immediately after the blast. Two doors were shut, and stuffing all crevices with hay, the men settled down in what they termed their "recreation hall."

They were organized in shifts and set to work circulating the air by waving their coats. Each man made himself an improvised mask by soaking his handkerchief with water at midnight. The Rev. John Thomas, negro minister, minister addressed the seven negroes in the group and said he believed "The Lord would lead them to safety."

Thomas, Lonnie Bell and Bill Placer, all negroes, set forth. A short while later Placer returned and told how he saw Thomas and Bell fall from the effects of the gas. The air was steadily becoming worse and men were beginning to make a dash for the stable several hundred feet away. Four were overcome, but were carried to safety.

Things looked dark and McNeill wrote his farewell message. At two o'clock two scouts were sent out to test the air. They reported it slightly better. Finally at four o'clock McNeill gave the order and the men ventured forth. They had covered almost a mile of their dark and dangerous journey when suddenly they saw a light in front and greeted the first of the rescue crew. Some men shouted with joy, others cried.

McNeill, having performed his work on reaching the surface, called for his pipe and faintly. However, he was quickly revived and tonight appeared none the worse for his adventure.

ENGINEER REJECTS PLAN TO CANALIZE BIG MUDDY RIVER

Abandon Plan to Connect Frankfort Coal Fields to Great Lakes

WEST FRANKFORT, Ill., Jan. 15 (AP)—Unfavorable report on plans to make the Big Muddy river navigable was made by Major John C. Gotwals of St. Louis, United States district engineer, it was learned here today.

The decision of Major Gotwals, who was authorized by congress March 3, 1925, to make a preliminary survey of the river became known thru letters written by him to local sponsors of the canalization project.

The engineer in his report to the war department says the cost of canalization is too high and the benefits too limited to justify expenditure by the federal government of the necessary funds. He considers the plan an impractical engineering project.

The idea was to provide an all-water route from the coal fields by connecting the Big Muddy with the Great Lakes to the Gulf Waterways scheme.

The report of Major Gotwals is considered here as ending this dream. While an appeal to the board of engineers for river and harbors is possible no such step is anticipated, according to Walter W. Williams of Benton, chairman of the waterways committee of the Illinois Chamber of Commerce.

Previous surveys by the state had resulted in favorable recommendations.

STATE TAX RETURNS MAY BE DELAYED

CHICAGO, Jan. 15 (AP)—Tax collection in Illinois may be considerably delayed this year due to late returns from the state tax commission to county clerks. Ordinarily the commission has its tentative assessments made and published in October and November, so that arrangements may be made for public hearings of objections early in December. This permits certifications to the county clerks who in turn have a couple of weeks to fix the tax rates in each district and turn over the books to the collectors on the first Monday in January as required by law.

No figures have been received as yet by County Clerk Switzer of Cook county and it is said that other county clerks are likewise without the reports. The committee is reported to be still holding hearings on railroad and downstate corporation valuations. Allowing time for distribution of the values determined by the board and certification by the county clerks, it is expected it will be at least the first of February before downstate counties get the required figures on which to reckon and extend taxes.

U. S. TO SUBMIT ALL TREATIES TO LEAGUE

GENEVA, Jan. 15 (AP)—Announcement today that henceforth the American government would transmit all treaties signed by the United States for insertion as part of the league of nations treaty series means that the league's famous treaty series now can be virtually completed, league officials said tonight. It also means that new treaties entered into by the United States with Ecuador, Russia, Egypt, Afghanistan, Turkey and Mexico which likewise are non-members can form a part of the series.

The communication of the United States made it clear that its decision did not imply that its treaties were to be formally registered under Article XVIII of the covenant, which stipulates that all treaties and international agreements signed by members of the league must be registered with the secretariat and published, and that such treaties or engagements were not binding until so registered.

Forty Men In Wrecked Mine Accounted For

Nineteen are Dead, While 21 Come Out Alive

FAIRMOUNT, W. Va., Jan. 15 (AP)—All the miners, 40 in number who entered the No. 8 mine of the Jamieson Coal & Coke company last night before it was partly wrecked by an explosion were accounted for tonight.

Twenty one late today walked forth from the "Valley of the Shadow of Death" after having been entombed for more than 12 hours and 19 bodies were removed from the pit at intervals following the blast. Up until tonight it had been thought that only 38 men were in the mine but the list of dead and living revealed that two additional men were included in the shift.

The entire work of rescue was accomplished in little more than 20 hours.

Virtually no hope had been held out for the rescue of any of the men. Word that all of the miners had not perished came when a rescue crew that had ventured far back from the elevator shaft discovered the men bratticed in a niche which had protected them from the deadly fumes that rolled thru the mine following the blast.

Rescuers at the top of the shaft dropped tools and embraced the saved ones as they stepped from the elevator.

The men were in fairly good physical condition and were rushed to first aid stations at the mine's mouth and later to hospital.

The first bodies were brought from the mine this morning. It was then that the hopes of saving the others alive began to fade. Members of the rescue crews coming outside told of devastation wrought by the blast. A few of the bodies found later in the day were about 200 feet from the point of the explosion which was located at the bottom of the shaft. These victims had apparently been asphyxiated as they fled toward the elevator.

There is virtually a unanimity of opinion expressed by all the speakers. They agreed that the farmer was not on an economic level with protected industry and labor, and that the best thing evolved from conferences and discussions should be urged in agriculture's favor.

RAILWAY ORDER GIVES ULTIMATUM

CINCINNATI, Jan. 15 (AP)—Threatened suspension of the Brotherhood of Railway and Steamship Clerks, Freight Handlers, Express and Station Employees, by the American Federation of Labor, and proposed wage increases for all members of the brotherhood will be submitted to a meeting here Monday of the grand executive council with 200 general chairmen. The grand executive council was in session today but deferred action on the suspension ultimatum and the wage requests until Monday's meeting with the brotherhood chairmen.

The ultimatum will expire two days after Monday's meeting. The executive council considered today a proposed increase of seven cents an hour for railway clerks. E. H. Fitzgerald, president of the brotherhood would not support the increase unless it was accompanied by a 10-cent increase for the entire brotherhood.

The ultimatum will expire two days after Monday's meeting. The executive council considered today a proposed increase of seven cents an hour for railway clerks. E. H. Fitzgerald, president of the brotherhood would not support the increase unless it was accompanied by a 10-cent increase for the entire brotherhood.

Frank D. Barton, vice-president and chairman of the legislative committee of the Illinois Agriculture association was chairman of the resolutions committee. The other members were Messrs Walker, Boyden, Lundstrum, Stannard.

MUST BACK FARM RELIEF TO PROSPER

"If all Americans would open a sympathetic ear and a kindly heart to the farmers' situation a new kind of permanent prosperity would be reflected among the American people as never before witnessed in the world."

That is the belief of Sam H. Thompson, president of the Illinois Agricultural Association and the American Farm Bureau Federation, as stated in a report received by the Morgan County Farm Bureau in which he says that sufficient importance has not been placed on the fact that the farmer is not getting a fair show for his products.

President Thompson, in referring particularly to the correspondence of George N. Peck, president of the American Council of Agriculture, and Chester C. Davis, grain marketing director of the Illinois Agricultural Association with Sir Josiah Stamp, eminent English economist, conducted through Vice President Dawes, states:

"I was particularly impressed with the statement of Sir Stamp: 'As has already been emphasized in previous correspondence, the ultimate test of the scheme is whether the return on the capital and labor of the farmer is fair and reasonable in comparison with that secured by capital and labor in other spheres.'"

"I have studied the debate material very thoroughly and was especially impressed with this statement. Who is here to say that the farmer is getting his fair share of the national income? Everyone knows he is not. It is that deplorable situation which we are trying to relieve."

"If all Americans, I care not of what occupation or rank, would open a sympathetic ear and a kindly heart to the farmers' unsatisfactory situation, and help relieve his lack of fair income, then, if relieved, the complete curing of it would reflect in a new kind of permanent prosperity among the American people never before witnessed in the world. We have seen the spirit of business and industry because of the partial convalescence of agriculture during 1924 and 1925. Cure the low price illness of agriculture and all Americans will benefit."

The obstacles toward gaining an export corporation as mentioned by Sir Stamp are only those practical difficulties to which I

PASTOR'S AID IS ACTIVE SOCIETY

The Pastoral Helpers' report was omitted from the annual report of the Central Christian Church. The Pastoral Helpers have done a very notable work during 1925. Much of their service has been rendered to individuals and organizations outside of the local church. During the past year they raised more money than during any preceding year in their history. They gave to organizations within the Central Christian Church and to organizations outside of the church in Jacksonville and Morgan County during 1925 the sum of \$1,726.30. Mrs. Lillian King is the President of the Pastoral Helpers. The report was read at the Annual Meeting by the Treasurer, Mrs. George T. Douglas.

JUNIOR HIGH GRADS TO HOLD CLASS DAY

A "Class Day" program, the first in the history of the Junior High School, will be presented at 2:00 o'clock assembly on Tuesday afternoon of next week, in which the members of the class which will graduate this semester into the High School, will take part.

A very entertaining little Class Day program will be presented, including the following:
Class History—Darlene Sharp.
Class Poem—Edward Sieber.
Class Prophecy—Elizabeth Walker.

Class Will—Jean Terhune.
Dorothy Correa, piano solo.
Frank Baptist, violin solo.
Class Yell.

Class Song, written by Jean Terhune, to tune of Illinois.
The Junior High Student president, David Dickerson, who is also a member of the graduating class, will preside over the program.

MAKE RESOLUTIONS REGARDING EXAMS

In view of the coming mid-semester examinations, which will be held the last week in January, the student council of Jacksonville High School has passed the following resolutions:

"Whereas, there is only one valid method of writing examinations, namely from the information which the writer himself possesses, by his own efforts alone, and whereas, all other methods, commonly called cribbing, cheating, etc., are dishonest, harmful to all students, and detrimental to the spirit of righteousness and fair play, for which our school stands,
Be it resolved by the members of the student council of Jacksonville High School that any tendencies toward unfairness in examinations be discouraged by all students, and that every case of dishonesty be exposed and the offender drastically disciplined."

NOT ENOUGH CASH TO PAY FOR T. B. CATTLE

CHICAGO, Jan. 15. (AP)—Governor Len Small said here today that there is not enough money in the state treasury to continue paying farmers and dairymen for tubercular cattle destroyed in the fight for pure milk and that new funds for the war will not be available until July 1.

The governor was queried from the floor while he was presiding at a state conference on the agricultural surplus.

The state legislature appropriated \$2,000,000 to be used annually with federal money for the work of eradicating tubercular cattle, said the governor after he had obtained permission from the several hundred delegates to discuss the new business.

The government funds expired six months ago. Approximately \$600,000 of the state fund had been used. Taxes cannot be collected this year until probably July 1.

The taxes under which we now are running were levied on the assessment of December a year ago. Legislative appropriations were increased from \$50,000,000 to \$70,000,000 to come from the general fund and much of it was emergency legislation, such as the fund of \$750,000 for the downstate tornado sufferers.

"The state of Illinois can spend and will spend \$500,000 by July 1."

"There is not enough money in the treasury for the state to pay now and keep running."

"I promised the committee when the bill was passed that when the money was exhausted I would try to have the work stopped until we could pay the farmers."

LIONS CLUB HEADS RELIEF FUND FOR MINERS ORPHANS

WILBURTON, Okla., Jan. 15. (AP)—The death list in the explosion Wednesday at the Deann-McConnell Mine No. 21, tonight apparently had been increased to ninety three. Relief workers late today said they had located five bodies when only three previous had been thought uncovered. All five were negroes.

Forty-five convicts from the Oklahoma penitentiary at McAlester nearly today prepared most of the graves for the victims, and tonight a long row of graves was visible in the little country cemetery near the mine. A few funerals were held late today.

Jim McConnell, owner of the ill-fated mine, said today that he would do everything possible to prevent suffering among the dependents of the dead miners pending returns from relief movements already started.

Following an appeal last night from the Wilburton Lions' Club, Governor Trapp today issued a nationwide proclamation calling for donations to a fund of \$100,000. He designated the Lions Club as the official agency to receive donations and asked that they be directed to Claude Briggs, president of the club.

ATTEND DEBATE IN SPRINGFIELD
A party from Jacksonville High School, including Miss Laura Mulford and Miss Hunter of the faculty and Thelma Waltman, William Wainwright, John Cusie, Dorothy Chapman, Lois McNeely, Carlyle Scott, Paul Busey and Dorothy Deaton, members of the J. H. S. debating team, went to Springfield last night where they attended the debate on the Child Labor question, which was held between the Lincoln College of Law and Kent College.

Judge E. S. Smith presided over the debate, and the decision was made by F. G. Blair, County Superintendent. E. S. Pratt and City Superintendent Winstrom.

COOLIDGE SUSTAINS PERSHING'S DECISION
WASHINGTON, Jan. 15. (AP)—The interpretation placed on the Tanna-Africa Arbitral award by General Pershing was sustained by President Coolidge tonight in his decision on the Chilean appeal from actions of the plebiscitary commission, over which he presided.

The president reiterated that Chilean sovereignty was not involved in the interpretation of the award and emphasized that both Chile and Peru had pledged themselves to use their resources and authority to bring about a fair plebiscite.

The actions of the commission, which Chile appealed to President Coolidge as arbitrator, December 9, had to do with the determination of dates and preparations for the voting which, under his award, is to determine the sovereignty of the two provinces, long in dispute between the two nations.

The general's stand that the award gave the commission "all authority necessary for the distribution of the prerequisites of a fair plebiscite" was sustained by the president. The decision stated that Chile and Peru were bound by their pledge to give assistance in every way to the commission and upheld its application of the award to conditions which it justly had a right to evaluate.

The decision was handed to the Chilean and Peruvian diplomatic representatives here and was called to General Pershing at Arica, where the commission is sitting.

IN JUSTICE COURT
Edward Gibbons and Mrs. Bertha Goffner were bound over to the May term of circuit court Friday in Justice C. O. Bayha's court on a statutory charge. The bond was fixed at \$1,000 in each case. The defendants are colored and Gibbons is said to be the son of the Goffner woman. Complaint against them was made by a number of colored residents.

State's Attorney Hugh Green appeared for the People at the hearing, and the defendants were represented by Judge William E. Thomson.

FOR RELIABLE REFRIGERATION

The York
NO ICE IN THIS MARKET

A modern, automatic, mechanical refrigerating plant manufactured by The York Mfg. Co., and installed by Westerlin & Campbell of Chicago, will refrigerate this market, thereby eliminating the use of ice, and creating the greatest possible sanitary condition.

Through the use of this plant a uniformly low temperature can always be obtained, and is your assurance of strictly fresh products.

For your convenience a refrigerated compartment will be maintained—whereby you can either phone your order, or make your selection early and call for it later.

Through many years of intensified research and experiments, and by the application of practical, scientific engineering principles, all of this being supported by the aggressive and honest policies of its organization, York today leads the field and enjoys the enviable reputation of being the standard of refrigerating plants.

We are glad to be among those quality market equipment firms who are represented at the Jacksonville branch of the S. & K. Markets.

Mrs. W. S. Jones, who has long been active in Parent-Teacher work, was a guest and the speaker of the afternoon. Mrs. Jones gave a most interesting talk on "The Ever-Widening Circle" in which she presented facts showing the development and future sphere of Parent-Teacher work.

Preceding the address, Mrs. Ben Lorton, the president, conducted a short business session, and a number of committee reports relative to work that is being done for the benefit of the school, were given. Mrs. Orville Coultas also entertained the assembly with a piano solo, "The Chase" by Reinberger. Mrs. Coultas is a musician of ability and her selection was received with appreciation.

At the close of the afternoon, the ladies enjoyed a social hour. Refreshments were served by the social committee with Mrs. Harry Clark, chairman, assisted by Mrs. Howard Anders, Mrs. James Baxter, Mrs. A. J. Barber, Mrs. Alfred Crozier, Mrs. Jerome Culp, Mrs. Ralph Crabtree, Mrs. C. R. Caldwell and Mrs. M. Conover.

The program had been arranged by Mrs. Ed Young, chairman of the program committee.

Club Pierrot to Enjoy Dancing Party
Many of Jacksonville's younger social set will attend the initial dance of the Club Pierrot this evening at the Hotel Abraham Lincoln in Springfield.

From reports reaching the committee in charge a large attendance is assured, which is estimated at between 150 and 200 couples.

DeBolt's orchestra of Jacksonville will furnish the music. Many surprises and novelties are planned.

Ex-Service Men
Given Entertainment
The Bundy jazz orchestra gave the ex-service men at the Jacksonville state hospital a lively concert last night, under the auspices of the Knights of Columbus Educational and Welfare organization. Members of the committee distributed chocolate bars, sugar candy and chewing gum. Forty pounds of candy were given out, and the boys enjoyed the treat greatly.

I. C. Dramatic Club
Holds Election.
The Illinois College Dramatic club held an election of officers at Jones Chapel, Friday afternoon. Prof. J. G. Ames was named director and Prof. H. L. Caldwell assistant director.

Other officers named were: President—Merrill Barlow. Vice-President—Lavinia Scott. Secretary—Louise Correll. Treasurer—Prof. Ames. Business Manager—Royce Houk.

The trial committee which will judge the students who wish to become members is composed of Mr. Houk, Elizabeth Scott and Earl Hoover.

The play selecting committee is Lavinia Scott, Raymond Stearns and Earl Hoover.

The club discussed plans for the ensuing year.

The play which will be presented in the spring will probably be from Shakespeare, possibly "The Merchant of Venice," or "The Taming of the Shrew."

Bible Class
Entertained.
Members of the A. T. Capps Bible class of Grace M. E. church were entertained last night at the home of Mr. and Mrs. B. F. Lane, 756 West Douglas avenue.

A waffle supper was served at 6:00 o'clock, and this was followed by a very social time. An interesting feature of the evening's entertainment was a fashion show which was staged by eight or ten of the ladies present. Costumes of the long ago were shown as well as the changing styles of the years which came after.

There were forty or forty-five present and they spent a very pleasant evening at the Lane home. Mrs. Lane was assisted in entertaining by Mrs. Esther Wood.

PYTHIAN PRELATE TO SPEAK AT ROODHOUSE
Supreme Prelate Fred S. Attwood, Knights of Pythias, will speak at the Christian church in Roodhouse, Sunday morning at 10:45 o'clock taking for his subject, "Which was the Prodigal." In the afternoon at 2:00 o'clock Mr. Attwood will speak at Castle Hall, Worcester Lodge, No. 113 on "Fraternism and Pythianism."

Invitations have been received by the local Pythians to attend the speaking, and it is probable that a large delegation will go to Roodhouse. Mr. Attwood is a nationally known speaker.

AARON C. READ TO SEEK CONGRESS SEAT

Aaron C. Read, former resident of Jacksonville, attorney and farmer will make the race for a seat in Congress at the age of 80 years. Mr. Read, who will be remembered by many Jacksonville residents as an attorney with offices here, has announced his candidacy for office in Nebraska. He is now a resident of Madison, Nebr.

The Omaha, Nebr., World-Herald gives the following account of Mr. Read's candidacy:

"Eighty years old, a farmer and lawyer, is Aaron C. Read who has decided he wants to represent his district in congress.

"Mr. Read, who farms in Stanton county although he has Madison for a postoffice, has filed at Lincoln as a candidate for congress. He affiliates with the Republican party and that party only," he insists. The district is now represented by Edgar Howard, democrat.

"Mr. Read has lived his eighty years without ever entering the political arena. As a youth he was admitted to the bar in Franklin county, Ohio, and later practiced in Jacksonville, Ill.

"In 1886, Mr. Read went to Omaha where he was admitted to practice by the district court. Six years later, he took a homestead in Stanton county and has been farming ever since. Last November, he again heard the call of the law, and was admitted to practice by the supreme court."

Insurance Co. Meets
The annual meeting of the Franklin Farmers Mutual Fire and Lightning Insurance Company was held in Calhoun's hall Tuesday with an attendance of thirty odd members.

The annual report of the secretary showed the company's affairs still prospering. There are now 538 risks on the books, with a total insurance in force of \$1,383,000. In the past year the company has sustained small losses amounting to \$2,425, and with an assessment of 20c on the \$100 insurance levied in 1925, the company enters upon the present year with a balance of \$2,400 in the treasury.

Four retiring directors were elected for another term: Geo. B. Haynes, G. A. Grider, A. A. Round and Edgar Spires. W. M. Rees, president, and Chas. E. Criswell, secretary, were re-elected and also named as delegates to attend the annual state meeting of mutual fire insurance companies to be held in Bloomington on Feb. 9-10. An important action at the meeting Tuesday was the decreasing of the distance limit between property insured from 100 feet to 50 feet.

Next year the company will celebrate its fiftieth birthday. Steps were taken Tuesday to make the annual meeting a notable event in the company's history. Wives of the members will be guests at the annual dinner and the program will be one of special interest.

Dinner for the members present Tuesday was served by the Ladies' Aid Society of the M. E. church.

Mitchell's Men Take Third Conference Game

Lincoln No Match For J. H. S. Squad; Locals Win 40-21

In a game that was so one-sided the first score, getting one point that a real back interest was via the free throw route. They backing, Coach John Mitchell's J. H. S. quintet defeated Lincoln 40-21. Mitchell's men got their first field goal, tying the score. From then on, to the close of the game, it was all Jacksonville. The first period ending 8 to 4, the half 24 to 7, and the third quarter, 33 to 13. Mitchell then began to make wholesale substitutions, using nine men, altogether, during the game.

ROUTT LOSES CLOSE ONE TO BARRY HIGH

Tied at Quarter 4-4, and at Half 6-6—Visitors Do Only Scoring in Third But Go Scoreless in Final—Final Score 12-11.

While Jacksonville High was winning on the David Prince floor from Lincoln High last night, Routt High was dropping a heart-breaker to Barry High 12 to 11.

Routt took an early lead when Foulkes shot an easy short one, but Jones soon registered one for Barry. Henry soon took the ball away from a Barry player and made good with another field goal for the Coenen crew but just as the first period ended, Foulkes broke the tie by tossing two points via the free throw route.

But Elder, Barry guard, again knotted the count from the field, and the half ended, with the score again tied, six all. In the third session, Routt failed to register, but for Barry Hancock sank one soon after the opening of the period and Elder followed with another, and again counted before the whistle ended the quarter, the score showing Barry in the lead, 12 to 6. It looked blue for the Eastenders, but in the final session they kept the visitors from scoring, but jacked one point after the period opened Costello hooked one and Foulkes followed suit. Lavery then gained a point by a free toss and Barry had a chance at a free throw, as the quarter ended.

FRANKLIN HIGH SHOWS CLASS OVER ROODHOUSE

Roodhouse, Ill., Jan. 15. (Special to the Journal)—Although Winchester High was defeated here tonight by Coach Porter's Athens High quintet, Coach Walsh's men deserve great credit for holding the visitors down to a 22 to 13 score, as the Athens team is known through Central Illinois as one of the leading teams, the same this year as in several years past.

The visitors got a nice lead in the opening session of 8 to 2, but could score but two points before the end of the half, while Winchester added four to make the count at the rest period 10 to 6. Again, in the third period, Coach Scott's county quintet outscored the visitors, getting five counters while the Porters were annexing a pair for a period count of 12 to 11, but in the final quarter the visitors cut loose, added 10 points and holding Winchester down to two counters.

Preceding the main game, a game between the Junior and Sophomore girls of Winchester High ended in a 14 to 6 victory for the Sophs.

NEW YORK, Jan. 15. (AP)—Under the persistent hammering of bear traders, stock prices today broke away on the downside from the narrow trading area within which they had been fluctuating for the last fortnight. Net declines of one to five points were registered by a long list of active issues with the final quotations generally around the lowest of the day and the rail and industrial averages in new low ground for the year. Trading was substantially increased in volume the day's sales running over 2,000,000 shares. The reaction took place in the face of generally favorable trade and financial news. Call money held at 4 1/2 percent all day but loans below that figure were reported in the outside market.

The weekly statement of the federal reserve bank showed slight improvement in the credit position and the weekly mercantile reviews were optimistic. Dun's review for the last fortnight, after the customary year end contraction, business is beginning to expand again the net yet generally.

Bradstreet's states that "trade in both productive and distributive lines is holding the pace set in the first week of the year fairly well."

Commodity markets continued irregular. Huge blocks of U. S. steel common were pressed for sale throughout the session with the result that the stock dropped two points to 133 or 3 1/2 points below the offering price of the steel corporation to its employees in its annual stock subscription plan announced earlier in the week. Other standard industrial stocks were hard hit. Heavy selling of motors followed the announcement that directors of the Hudson company had declared only the regular 85 cent dividend that stock breaking to 110 and then rallying to 111 for a net loss of 4 1/2 on the day.

General Motors, Chrysler and Mack Trucks each dropped about three points.

Time money and commercial paper rates were unchanged. Sterling exchange continued its climb toward parity today cables crossing \$4.86 to within half a cent of parity.

French francs rallied over five points to around 27 1/2 cents. Japanese yen touched a new high at 44.38 cents in the early part of the session. The government's plan for an early restoration of the gold standard.

CHICAGO CASH GRAIN

Chicago, Jan. 15. (AP)—Cash wheat market finished 1c firmer in prices while basis were firm. Demand good. Trade offerings slightly better. No 1 hard brought 71 to 7 1/2 over new May and No 2 hard 64 to 6 1/2. MAJOR GILBERT GIVES INTERESTING LECTURE

Former Soldier of British Army Narrates Hardships in March on Jerusalem.

Major Vivian Gilbert, who lectured at the Illinois Woman's college Friday evening, proved himself a rarely interesting speaker, giving his audience a word picture of Allenby's march on Jerusalem, which will long remain in their memories. Major Gilbert's lecture interspersed with amusing incidents of his soldier life was given before a large audience.

Major Gilbert was one of a family of eight boys, all of whom enlisted in the British army and all of whom became officers. He has been trained for dramatic work, and in 1914 was playing in "Dog O' My Heart" in France, when he returned to England and was sent to France as second in command of a machine gun company. After six months' service there he was sent to Siberia where his forces were refitted for mountain warfare.

After five months fighting in the Balkans they re-embarked for Egypt where they were attached to Gen. Allenby's forces and fought the desert service. Thirty thousand camels were a part of their desert equipment, and Major Gilbert told numerous stories of the peculiarities of these desert animals, of their ability to endure hardships of the most trying kind, and of their inability to withstand other seemingly harpless conditions.

Gen. Allenby's army took the caravan route which begins at Cantara; this is the oldest caravan route in the world and has been used throughout the ages. It is all going from Egypt into Palestine. Napoleon followed this route. The British army found many difficulties, chiefly the lack of water, the extreme heat, the

flies and the sand. The old wells had been sufficient for the caravans but did not begin to supply the army, and it was found necessary to pump the water up from the River Nile into great reservoirs. Great waterworks were built by the army and pipe lines were laid across the desert; a railroad was built at the rate of a mile a day and engines were brought from London. The sand was so deep that the men had to sink to their knees and a plan had to be devised to overcome this handicap. Rolls of chicken were finally used, three rolls fastened together and laid on top of the sand and a road thus made which was wide enough for four men to advance over; this was built for 200 miles across the desert. It took them 1 1/2 years to fight across the desert, a trip which was completed in one night by train when Major Gilbert returned.

Arriving on the edge of Palestine, a new training for the army was necessary. The soldiers were marching for hours over the sand, with full equipment and packs, but they were not allowed to drink any water except when ordered to do so. The diet was to live on one pint of water per man per day, this for drinking, washing and shaving; the animals were trained to get along with one notch drinking.

The last attack was begun in October, 1917. The wells of Jericho in excellent condition were captured at Beersheba. There was held by the Turks, and was attacked six times before it was finally captured. Here an ample supply of water was found, and it took four hours to get a drink of water to every man.

Conduct Successful Crusade. Ten caravans have been carried on for the capture of Jerusalem through the centuries, and only two have been successful. One of these was Gen. Allenby's. The Arabian prophet said that when

the waters of the river Nile flow into Palestine, the prophet from the west shall drive the Turk from Jerusalem. This prophecy was made 300 years ago, and seemed absurd, but the pipe lines of the British army had brought the waters of the Nile, through the pump lines, into Palestine, and so the prophecy was fulfilled. Gen. Allenby was known as "The prophet" by the native people, because of this prophecy.

Orders were given that no fighting was to take place in the Holy City, and all warfare was to be carried out on the hills around Jerusalem. In December, 1917, the Turks withdrew, and Major Gilbert told a very amusing story of how the keys to the city were turned over four different times to different representatives of the British forces by the mayor of the city. First, to a cook who had been sent out for provisions and lost his way, finding his way to the city, where the people were waiting the arrival of the victorious army and took him to be the official representative; next the Brigadier General insisted on having the ceremony repeated; then the Divisional General had to have the honor, and finally Gen. Allenby heard that the city was having a gala celebration, he had the ceremony repeated and accepted the keys to the city on behalf of the victorious forces. The only flag which was ordered raised over Jerusalem was the British flag, over the hospital; this march of the British army was called the "civilized march." Fifty thousand people were starving in Jerusalem, and all possible aid was given them.

The next objective was Jericho. By this time the soldiers had all bought Bibles, and were using them as guide books, finding their surroundings described most minutely, and the Bible stories brought to these men very real events of history. In the pass of Jericho, the tactics of Saul and Jonathan were carried out again by the British forces with great success.

Crossing the river Jordan was a perilous undertaking and many men were lost in the attempt, but a wooden bridge was finally constructed and the army crossed at the point where St. John baptized Christ. Here the British joined forces with the Arabian army. Major Gilbert's servant was killed by a shell and was buried on the front of the line.

Major Gilbert remained in Palestine a year after the Armistice directing improvements. Peace and freedom reigned in the Holy Land for the first time in 500 years, and the crusade seemed to all who had a part in it greatly worth while.

PEORIA ATTORNEY IS SPEAKER AT BANQUET

E. Bentley Hamilton, prominent attorney of Peoria, addressed the employees and local officials of the Illinois Power & Light Co. at a banquet given last night at the private dining room of the New Dunlap hotel. Superintendent E. H. Gray presided at the meeting.

Sixty-one employees of the company were present. The meeting was devoted to a discussion of company affairs and to Mr. Hamilton's address. A high power radio receiving set, which had been installed for the occasion, furnished entertainment as an attractive feature of the program.

Mr. Hamilton gave the employees pointers on the technique of operating the company's many plants and counseled co-operation of all hands to give satisfactory service to the public. The employees found his address instructive and helpful, and filled with many valuable suggestions for carrying on the work.

The speaker touched on a matter of loyalty to the company, and stated that while the officials knew they had the absolute co-operation of every employee, it was always well to emphasize the value of such relations to both workman and employer.

TRIPLETS NOW AT PASSAVANT HOSPITAL

Mrs. Charles Burmeister and her trio of little daughters who arrived last Saturday, are now guests of Passavant hospital. At a meeting of the Passavant hospital board Thursday night it was decided to extend an invitation from the hospital to Mrs. Burmeister and the triplets to spend the next six weeks at the hospital, and the invitation was accepted.

Yesterday afternoon Mr. and Mrs. Felix Farrell, Dr. J. M. Wolfe and a nurse from Passavant hospital drove to the Burmeister home, which is on the farm of Mrs. C. A. Barnes in Ebenezer neighborhood. Ralph Withee sent along the ambulance from the Withee garage to make the transfer of the little family from the Burmeister home to the hospital the more comfortable.

The triplets, who are said to be the first born in Morgan county, are seemingly strong and healthy but it will be very much easier for the mother to have them at the hospital for a few weeks. It was for this reason that the hospital invitation was gladly accepted.

Announce Program For Legion Meeting

Announcement of the program for the Twentieth district conference of the American Legion and that one hundred delegates from posts outside of Jacksonville will be in attendance insures a successful meeting here Sunday. This is the first district meeting to be held in Jacksonville and much interest has been manifested throughout the ten counties.

The posts of the district have shown their interest in Legion affairs this year by the splendid showing made in the membership campaign. Several of the posts have memberships paid up 100 percent for the year, and a number have passed the 100 mark.

At the present time the Twentieth leads all districts in the state in members paid up. Havana, Department Commander Scott W. Lucas' home town, and Jacksonville are two of the posts that have made exceptional gains in the district this year, and membership will be one of the themes of discussion at Sunday's session.

Most of the posts that will have delegations here will be represented by their commanders and adjutants, and additional members of their respective organizations.

There will be three department officials, Commander Lucas, Adjutant Floyd J. Heckel and Historian William Mundt. All three of the state officers will arrive in the city on Sunday morning.

Seventeen posts have indicated that they will attend the conference. Havana, Mason City, Virginia, Pittsfield, Manchester, Griggsville, Jerseyville, Beardstown, Barry, Beresburg, Winchester, Waverly, Greenfield, Winchell, Greenville, Murrayville, and Woodson. It is very probable that there will be others in addition to those mentioned. Altho Springfield is not a member of the local district a number of veterans will be present from that city.

In addition to the addresses and conferences there will be musical numbers by the Havana Jug band, the Jacksonville State Hospital Ex-servicemen's band and the orchestra from the School for the Blind. The Havana Jug band as well as the local musicians are sure to furnish plenty of entertainment and amusement for the veterans.

The program is scheduled to open at 10 o'clock Sunday morning with the roll call of posts with a luncheon at noon and adjournment at four o'clock in the afternoon.

The banquet will be served by the Legion Auxiliary at the Legion Home.

Commander Lucas will make the address of the day discussing

SCOTT W. LUCAS
State Commander

Legion activities for the ensuing year. Following adjournment of the afternoon the Legionnaires will visit the disabled veterans at the Jacksonville State hospital.

All sessions will be held at the Legion Home and will be presided over by Carl E. Newport, district executive committee man.

The program follows: Roll call of posts by District Adjutant Grant L. Hughes. Advance of colors.

Invocation. Address of Welcome—Glenn E. Skinner, Commander Jacksonville post.

Response—Department Commander Scott W. Lucas. Music—Havana Jug Band. Organization of the Legion—W. C. Mundt, State Organization Worker.

Greetings from Auxiliary—Mrs. Cora Corbridge, executive committee woman, 20th district. Luncheon.

Music—School for Blind orchestra.

Greetings from Voltaire—J. J. C. Colton, chief de gare. Membership—Floyd J. Heckel, department adjutant.

Music—Jacksonville State Hospital Ex-servicemen's band. Local Address of the Legion—James S. Barnes, Assistant Judge Advocate of the State Department.

Round table discussion and remarks by county chairmen. Visit to disabled veterans.

Local Legion officials are anxious to have a large number of Legionnaires present from the Jacksonville post.

GOOD ROADS PROGRAM AT ROTARY LUNCHEON

Representative Bush of Pittsfield and H. L. Caldwell of This City Speakers Before Rotary Members Friday Noon.

The program at the Rotary club luncheon yesterday at the Peacock Inn was given over to the subject of good roads, with Representative Carroll Bush of Pittsfield and H. L. Caldwell of this city as the speakers. The program was arranged in accordance with the request of the American Good Roads association that this be observed as Good Roads week, and various organizations have joined in the program.

It was announced during the session by R. W. Woolston that beginning the first week in February the Rotary meetings will be held at the New Dunlap hotel. It was also stated that when the meeting place of the club was changed from the Pacific hotel to the Peacock Inn, that the understanding was that the club would meet at the new hotel as soon as it was completed. The club is under obligation to Milton T. Stout, the proprietor of the Inn, for his courtesy in affording temporary quarters.

A committee was then appointed to express in a written statement to Mr. Stout the club's appreciation of his courtesy and of the service which he has rendered the club thru an extended period. The committee includes Mr. Woolston, C. O. Gordon and J. W. Walton.

President Spink introduced the speakers, the first of whom was Representative Bush. The need of a bridge over the Illinois river at Florence for the completion of route 36, was the main point emphasized by the speaker.

He called attention to the point that the provision of the law as passed is for a continuous passage and declared that a motorist should no more be called upon to say 75 cents to cross the river at this point that he should be called upon to pay a toll gate charge when traveling from Chicago to Springfield.

In the opinion of Representative Bush the bridge could be constructed without an enabling act by the legislature, the cost to be taken from the regular road fund and that furnished thru federal aid.

The extent of the traffic on the ferry at Florence is shown by the fact that during one period of 36 hours 700 cars were transported across the river, and at one time 80 cars were waiting to be taken across. When there is ice floating in the river it is not possible for the ferry to make the trip across the river and traffic is thus at a standstill.

The history of hard road building in this country was briefly outlined by Mr. Caldwell, who in his career as an engineer has prepared the specifications for many road improvements. The type of construction used in the strip at the end of North Main street was described, as was that which was laid on the Morton road. The latter experimental road, where various types of pavement and foundations were tried out, was also described in some detail. This experiment resulted in the concrete slab construction being adopted as the most satisfactory and least expensive of the various types.

Altho Illinois now has a total of 5,516 miles of hard roads, 140 miles are still to be constructed under the original \$60,000,000 bond issue. Not until all road construction provided for under

Plans for the Older Boy's Conference of this district will be made on Sunday afternoon of this week at a meeting which will be held in the Springfield Y. M. C. A. and will be attended by members from the Hi Y Clubs of Jacksonville, Waverly, Franklin and Springfield. Arthur T. Sweet and Victor Sheppard of this city will accompany the local Hi Y boys to Springfield. The conference will include an address by A. R. Freeman, state boys' work secretary of the Y. M. C. A., who will outline a tentative program for the Older Boys Conference.

On Sunday, January 24th, the Hi Y Gospel Troup of this city will go to Woodson to attend a meeting of the Christian Endeavor Society of the Presbyterian church. The meeting has been arranged by William Schwartzweiler, pastor of that church.

MATHER HOME ALMOST DESTROYED BY FIRE

Fire originating from sparks thrown from a burning flue partially destroyed the home of Fred E. Mather, 624 Caldwell street about 11 o'clock yesterday morning. The firemen arrived when the roof was almost gone, and succeeded in saving the building, except for the roof and a portion of the upper story.

Every room in the house suffered extensive water damage, and the building will have to be renovated thruout. The damage will probably reach several thousand dollars.
